Red Light Therapy Has Many Benefits.

- It Firms, tones & increase skin elasticity
- Minimizes wrinkles, fine lines, deep furrows & crow's feet
- Improves skin tone & clarity
- Helps Diminish Acne blemishes
- Reduces pore size & skin coarseness
- Increases blood circulation to the skin
- Fades scars, stretch marks, surgical wounds, age spots & irregular pigmentation
- Creates smooth skin that appears more youthful & allows for a longer lasting tan

People recently are raving about Red lights healing powers as well, claiming that it has helped with cases ranging from soreness to depression. Red lights provide a relaxing way to skin rejuvenation. No lasers, no cuts, no surgical procedures, just better looking skin!

Now Most Red Light Therapy Providers Recommend:

- Week 1 through 4 with 3 to 5 twelve minute sessions a week
- Weeks 4 to 12 with 2-3 twelve minute sessions a week
- And after week 12 a recommended 1-2 twenty minute session per week

Lotions that go along with the Red light therapy that enhance the benefits are:

- **Body Skin Cell Rejuvenator** The perfect serum to maximize the effectiveness of Red Light Therapy by allowing complete penetration of red light rays, which stimulates intercellular energy and provides endless benefits.
- **Face Skin Cell Rejuvenator** Allows the same experience as the body but for your face also includes an enzymatic compound for extraordinary anti-oxidant skin repair.
- **Skin Cell Maintainer** Conditions skin with Retinol and other intense moisturizers and provides luxurious feeling skin with silicone emulsion, All around the perfect moisturizing lotion for after your Red Light Therapy Treatment Total skin rejuvenation is a process which includes a balanced diet, gentle thorough skin cleansing, regular exercise and plentiful rest. Red light therapy not only increases your results but speeds up your path to youthful, glowing skin!
